AMENDED IN ASSEMBLY MARCH 15, 2010

CALIFORNIA LEGISLATURE—2009–10 REGULAR SESSION

ASSEMBLY BILL

No. 1809

Introduced by Assembly Member Smyth

February 10, 2010

An act to amend Section 7195 of, and to add Section 7195.1 to, the Business and Professions Code, relating to home inspections.

LEGISLATIVE COUNSEL'S DIGEST

AB 1809, as amended, Smyth. Home inspections: energy audits.

Existing law provides that it is the duty of a home inspector, as defined, who is not licensed as a general contractor, structural pest control operator, or architect, or registered as a professional engineer, to conduct a home inspection, as defined, with the degree of care that a reasonably prudent home inspector would exercise. Existing law provides that a home inspection may include an inspection of energy efficiency, if requested by the client. Under existing law, a home inspection report is a written report consisting of specified information that is prepared for a fee and is issued after a home inspection.

Existing law, the Warren-Alquist State Energy Resources Conservation and Development Act, requires the State Energy Resources Conservation and Development Commission to establish specified standards related to a statewide home energy rating program for residential dwellings, known as the Home Energy Rating System (HERS) program.

This bill would authorize a home inspection to include a HERS home energy audit. If the client requests ~~an inspection of energy efficiency~~

or a HERS home energy audit, the bill would require the home inspection report to include certain additional specified information. The bill would declare the intent of the Legislature that a HERS audit may, at the request of the client, be performed by a HERS home energy certified home inspector.

Vote: majority. Appropriation: no. Fiscal committee: no.
State-mandated local program: no.
